## AIB Recruitment 2025/2026 Online Application Form

### Description

We are seeking a highly skilled and motivated AI Engineer to join our dynamic team at AIB (Artificial Intelligence Bank). As an AI Engineer, you will play a crucial role in developing and implementing cutting-edge AI solutions that drive innovation and efficiency in the banking industry.

### Responsibilities:

- Design, develop, and deploy advanced AI models and algorithms to enhance various banking processes.
- Collaborate with cross-functional teams to understand business requirements and integrate AI solutions into existing systems.
- Conduct thorough analysis of data sets to identify patterns, trends, and insights that can inform decision-making.
- Stay abreast of the latest advancements in AI and machine learning technologies, and actively contribute to the continuous improvement of AIB's AI capabilities.
- Work closely with stakeholders to ensure AI solutions align with business objectives and compliance standards.
- Provide technical guidance and mentorship to junior members of the AI team.
- Participate in the documentation of AI models, processes, and methodologies.

### Qualifications:

- Bachelor's or higher degree in Computer Science, Data Science, or a related field.
- Proven experience in developing and implementing AI solutions in a professional setting.
- Strong programming skills in languages such as Python, Java, or C++.
- Proficient in machine learning frameworks such as TensorFlow, PyTorch, or scikit-learn.
- Solid understanding of data structures, algorithms, and statistical modeling.
- Excellent problem-solving and critical-thinking skills.
- Effective communication and collaboration abilities.

### Benefits:

- Competitive salary and performance-based bonuses.
- Comprehensive health insurance and wellness programs.
- Opportunities for professional development and continuous learning.
- A collaborative and innovative work environment.
- Employee assistance programs and work-life balance initiatives.
