Aws Recruitment 2025/2026 Application Portal

Description

We are seeking a highly skilled and motivated AWS Cloud Engineer to join our dynamic team. As an integral part of our cloud infrastructure team, you will be responsible for designing, implementing, and maintaining AWS-based solutions. The ideal candidate should possess a deep understanding of AWS services, strong problem-solving skills, and a passion for staying up-to-date with the latest cloud technologies.

Responsibilities

- Design, deploy, and maintain scalable and reliable AWS infrastructure.
- Collaborate with cross-functional teams to understand project requirements and translate them into robust cloud solutions.
- Implement and manage AWS services such as EC2, S3, RDS, Lambda, and others.
- Troubleshoot issues, perform root cause analysis, and implement solutions to prevent recurrence.
- Ensure security best practices are followed in the design and implementation of AWS solutions.
- Collaborate with DevOps and development teams to automate infrastructure provisioning and deployments.
- Stay informed about industry trends and advancements in AWS services.

Qualifications

- Bachelor's degree in Computer Science, Information Technology, or a related field.
- Proven experience as an AWS Cloud Engineer or similar role.
- In-depth knowledge of AWS services and architecture.
- Strong scripting and automation skills using languages such as Python, Shell, or PowerShell.
- Experience with containerization technologies such as Docker and orchestration tools like Kubernetes.
- Familiarity with CI/CD pipelines and DevOps practices.
- Excellent problem-solving and troubleshooting skills.
- AWS certifications (e.g., AWS Certified Solutions Architect, AWS Certified DevOps Engineer) are a plus.

Job Benefits

- Competitive salary
- Health, dental, and vision insurance
- 401(k) retirement plan
- Flexible work hours
- Professional development opportunities
- Collaborative and innovative work environment
