Eden Life Recruitment 2025 | Latest jobs

Description

Eden Life, a leading technology-driven company at the forefront of innovation in the health and wellness sector, is seeking a dynamic and experienced Senior Software Engineer to join our growing team. As a Senior Software Engineer, you will play a key role in designing, developing, and maintaining cutting-edge software solutions that contribute to our mission of enhancing people's well-being.

Responsibilities

- Collaborate with cross-functional teams to analyze requirements and design scalable software solutions.
- Develop high-quality, efficient, and maintainable code in adherence to coding standards.
- Lead and mentor junior engineers, fostering a collaborative and innovative team culture.
- Participate in architectural design and decision-making processes.
- Troubleshoot, debug, and resolve software defects and issues.
- Stay updated on emerging technologies and contribute to the continuous improvement of development processes.

Qualifications

- Bachelor's or Master's degree in Computer Science, Software Engineering, or a related field.
- Minimum of 5 years of experience in software development, with a focus on backend systems.
- Proficiency in programming languages such as Python, Java, or C++.
- Strong knowledge of web technologies, databases, and cloud services.
- Experience with agile development methodologies and tools.
- Excellent problem-solving and communication skills.

Job Benefits

- Competitive salary and performance-based bonuses.
- Comprehensive health and wellness benefits, including medical, dental, and vision coverage.
- Flexible work hours and remote work options.
- Professional development opportunities and ongoing training.
- Collaborative and innovative work environment.
- Employee assistance programs and wellness initiatives.
