EEDC Recruitment 2025/2026 Application Form Portal

Description

Join the dynamic team at EEDC (Electricity Distribution Company) as an Electrical Engineer. In this role, you will be responsible for contributing to the planning, design, and implementation of electrical systems. Your expertise will play a crucial role in ensuring the reliability and efficiency of our electrical distribution network.

Responsibilities

- System Design:** Develop and review electrical system designs, ensuring compliance with industry standards and regulations.
- Project Management:** Oversee the execution of electrical projects, from planning to completion, ensuring timely delivery and adherence to quality standards.
- Maintenance and Troubleshooting:** Conduct regular maintenance checks on electrical infrastructure, and troubleshoot issues to minimize downtime.
- Technical Support:** Provide technical support to field teams and collaborate with cross-functional teams to address complex electrical challenges.
- Regulatory Compliance:** Stay abreast of industry regulations and standards, ensuring that the electrical systems are in compliance with relevant guidelines.
- Innovation:** Identify and implement innovative solutions to enhance the efficiency and reliability of the electrical distribution network.

Qualifications

- Bachelor's degree in Electrical Engineering or a related field.
- Professional engineering license (PE) is highly desirable.
- Proven experience in electrical engineering, with a focus on distribution systems.
- Proficiency in relevant engineering software and tools.
- Strong analytical and problem-solving skills.
- Excellent communication and teamwork abilities.

Job Benefits

- Competitive salary and performance-based bonuses.
- Health insurance and wellness programs.
- Professional development opportunities.
- Work-life balance initiatives.
- Collaborative and inclusive work environment.
