Ehealth4everyone Recruitment – Jobs at Baker Hughes 2025

Description

We are currently seeking a highly skilled and motivated Data Scientist to join our dynamic team at Ehealth4everyone in collaboration with Baker Hughes. As a Data Scientist, you will play a crucial role in leveraging data analytics and machine learning techniques to derive actionable insights, drive innovation, and contribute to the growth of our organization. This position offers an exciting opportunity to work at the intersection of healthcare and technology.

Responsibilities

- **Data Analysis and Modeling:**
 - Analyze large datasets to identify trends, patterns, and insights.
 - Develop and implement machine learning models to solve complex business problems.
 - Collaborate with cross-functional teams to integrate data-driven solutions into existing workflows.
- **Algorithm Development:**
 - Design and implement algorithms for predictive modeling and optimization.
 - Continuously refine and improve models based on feedback and evolving business requirements.
- **Data Visualization:**
 - Create clear and compelling visualizations to communicate findings to both technical and non-technical stakeholders.
 - Present insights and recommendations to drive data-informed decision-making.
- **Collaboration:**
 - Work closely with software developers, data engineers, and domain experts to deploy models into production.
 - Collaborate with internal and external teams to address data-related challenges and opportunities.

Qualifications

- **Educational Background:**
 - Master's or Ph.D. in Computer Science, Statistics, Mathematics, or a related field.
- **Technical Skills:**
 - Proficiency in programming languages such as Python or R.
 - Experience with machine learning frameworks (e.g., TensorFlow, PyTorch) and data manipulation libraries (e.g., Pandas, NumPy).
 - Strong understanding of statistical modeling and hypothesis testing.
- **Experience:**
 - 3+ years of hands-on experience in data science or a related field.
 - Demonstrated success in developing and deploying machine learning models in real-world applications.
- **Communication Skills:**
