Expedia Career Opportunities 2025 – Apply Now

Description

Expedia, a leading global travel and technology company, is seeking a talented and motivated Senior Software Engineer to join our dynamic team. In this role, you will play a key part in shaping the future of travel technology, contributing to innovative solutions that enhance the overall customer experience. If you are passionate about software development, cutting-edge technologies, and the travel industry, we invite you to apply and be part of our exciting journey.

Responsibilities:

- Collaborate with cross-functional teams to design, develop, and implement high-quality software solutions for our travel platform.
- Contribute to the full software development lifecycle, including requirements analysis, design, coding, testing, deployment, and maintenance.
- Participate in architectural discussions and provide insights to improve system scalability, reliability, and performance.
- Work with product managers and stakeholders to understand business requirements and translate them into technical specifications.
- Mentor junior team members, conduct code reviews, and contribute to the continuous improvement of coding standards and best practices.
- Stay abreast of industry trends and emerging technologies to ensure our software solutions remain cutting-edge.

Qualifications:

- Bachelor's degree in Computer Science, Software Engineering, or related field. Master's degree is a plus.
- Proven experience (5+ years) in software development with expertise in Java, Spring, and related technologies.
- Strong understanding of microservices architecture, cloud technologies (preferably AWS), and RESTful API design.
- Experience with containerization and orchestration tools such as Docker and Kubernetes.
- Solid understanding of software development best practices, design patterns, and coding standards.
- Excellent problem-solving skills and ability to work independently or collaboratively in a fast-paced environment.
- Effective communication skills with the ability to articulate technical concepts to non-technical stakeholders.

Benefits:

- Competitive salary with performance-based bonuses.
- Comprehensive health, dental, and vision insurance plans.
- Generous vacation and paid time off policies.
- 401(k) retirement savings plan with company match.
- Professional development opportunities and tuition reimbursement.
