## Fis Global Career In Nigeria 2025

### Description

FIS Global is seeking a highly skilled and motivated Software Developer to join our dynamic team in Nigeria. As a Software Developer, you will play a crucial role in designing, developing, and maintaining software solutions that meet the evolving needs of our clients. If you are passionate about technology, innovation, and enjoy working in a collaborative environment, this is an exciting opportunity to contribute to cutting-edge projects in the financial technology industry.

### Responsibilities:

- Collaborate with cross-functional teams to analyze requirements and design software solutions.
- Develop and maintain high-quality, efficient, and scalable code.
- Participate in code reviews, ensuring best practices and coding standards are met.
- Debug and resolve software defects and issues in a timely manner.
- Stay abreast of industry trends and advancements to propose innovative solutions.
- Contribute to the full software development lifecycle, from planning to deployment.
- Collaborate with product owners and stakeholders to refine and prioritize features.

### Qualifications:

- Bachelor's degree in Computer Science, Software Engineering, or a related field.
- Proven experience as a Software Developer, with a strong focus on Java or Python.
- Familiarity with web development frameworks (e.g., Spring, Django) and front-end technologies (e.g., HTML, CSS, JavaScript).
- Experience with database design and SQL.
- Strong problem-solving skills and attention to detail.
- Excellent communication and teamwork skills.
- Knowledge of financial systems or related industries is a plus.
