FRIN Recruitment 2025/2026 – Apply Now

Description

Forest Research Institute of Nigeria (FRIN) is currently seeking qualified and motivated individuals to join our dynamic team as Research Scientists. As a Research Scientist, you will play a crucial role in conducting cutting-edge research in forestry and related fields. This position offers a unique opportunity to contribute to the advancement of knowledge in forestry while working in a collaborative and innovative environment.

Responsibilities:

- Conduct research projects in forestry, focusing on sustainable forest management, biodiversity conservation, and ecosystem services.
- Design and implement experiments, field studies, and data collection activities.
- Analyze data using statistical tools and present research findings through reports, publications, and presentations.
- Collaborate with interdisciplinary teams to address complex challenges in forestry and natural resource management.
- Stay abreast of current developments in forestry research and contribute to the development of new research initiatives.

Qualifications:

- PhD in Forestry, Environmental Science, or a related field.
- Proven experience in designing and conducting forestry research projects.
- Strong analytical and statistical skills.
- Excellent written and verbal communication skills.
- Ability to work collaboratively in a team and independently.
- Demonstrated track record of publications in peer-reviewed journals.

Benefits:

- Competitive salary commensurate with experience and qualifications.
- Health and dental insurance coverage.
- Opportunities for professional development and continued education.
- Access to state-of-the-art research facilities and resources.
- Collaborative and inclusive work environment.
- Pension and retirement plans.

How to Apply:

Interested candidates should submit a detailed CV, a cover letter highlighting their research experience and interests, and contact information for three professional references to. Please include "FRIN Research Scientist Application" in the subject line.
