## Ics Requirements | Apply Online Form 2025

### Description

We are seeking a highly skilled and detail-oriented individual to join our team as an ICS (Industrial Control Systems) Requirements Specialist. As an ICS Requirements Specialist, you will play a crucial role in ensuring the effective design, implementation, and maintenance of our industrial control systems. You will collaborate with cross-functional teams to gather and analyze requirements, ensuring that our ICS meets the highest standards of reliability, security, and efficiency.

### Responsibilities

- Collaborate with stakeholders to gather and document requirements for industrial control systems.
- Analyze and assess existing ICS to identify areas for improvement and optimization.
- Develop comprehensive documentation, including specifications, design documents, and test plans.
- Work closely with engineering teams to ensure the successful implementation of ICS requirements.
- Conduct risk assessments and propose mitigation strategies to enhance the security and reliability of ICS.
- Stay updated on industry best practices, emerging technologies, and regulations related to ICS.
- Provide technical support and expertise to resolve issues related to ICS requirements.

### Qualifications

- Bachelor's degree in Electrical Engineering, Computer Science, or a related field.
- Proven experience in industrial control systems design, implementation, and requirements gathering.
- Strong knowledge of ICS protocols, cybersecurity principles, and industry standards.
- Excellent analytical and problem-solving skills.
- Effective communication and collaboration abilities.
- Familiarity with regulatory requirements related to ICS (e.g., NIST, ISA/IEC 62443) is a plus.
- Relevant certifications such as CISSP, ISA/IEC 62443 Cybersecurity Expert, or equivalent.

### Job Benefits

- Competitive salary package.
- Health, dental, and vision insurance.
- Retirement savings plan.
- Professional development opportunities.
- Flexible work schedule.
