

Mainone Recruitment 2025 – Application Form

Description

MainOne, a leading provider of innovative telecom services, is seeking a dynamic and skilled Network Engineer to join our team. As a Network Engineer, you will play a crucial role in the design, implementation, and maintenance of our network infrastructure. You will be responsible for ensuring the smooth and efficient operation of our network, troubleshooting issues, and implementing solutions to enhance performance. This is an exciting opportunity for a talented individual to contribute to the success of a cutting-edge telecommunications company.

Responsibilities

- **Network Design and Implementation:**
 - Design, implement, and maintain network infrastructure to meet the organization's connectivity and performance requirements.
 - Collaborate with cross-functional teams to integrate new network technologies and solutions.
- **Network Monitoring and Optimization:**
 - Monitor network performance, troubleshoot issues, and implement solutions to ensure optimal performance.
 - Conduct regular network assessments to identify areas for improvement and implement optimizations.
- **Security and Compliance:**
 - Implement and maintain network security measures to protect against unauthorized access and security threats.
 - Ensure compliance with industry standards and best practices in network security.
- **Documentation and Reporting:**
 - Maintain accurate and up-to-date documentation of network configurations, policies, and procedures.
 - Provide regular reports on network performance and security metrics.
- **Collaboration and Support:**
 - Collaborate with internal teams and external partners to support the integration of network services.
 - Provide technical support and guidance to resolve network-related issues.

Qualifications

- Bachelor's degree in Computer Science, Information Technology, or a related field.
- Proven experience as a Network Engineer or in a similar role.
- Solid understanding of networking protocols, technologies, and best practices.
- Experience with Cisco and other networking equipment.
- Certifications such as CCNA, CCNP, or equivalent are highly desirable.
- Strong problem-solving and troubleshooting skills.
- Excellent communication and interpersonal skills.
