NASRDA Recruitment 2025/2026 Application Form Portal

Description

National Space Research and Development Agency (NASRDA) is seeking highly skilled and motivated professionals to join our team as Satellite Systems Engineers. In this role, you will be at the forefront of advancing Nigeria's capabilities in space technology and satellite systems. As a Satellite Systems Engineer, you will play a crucial role in the design, development, and maintenance of satellite systems, ensuring their optimal performance and functionality.

Responsibilities

- Collaborate with cross-functional teams to design and develop satellite systems, considering performance, reliability, and mission objectives.
- Conduct feasibility studies and risk assessments for satellite projects.
- Implement and test satellite systems, ensuring adherence to industry standards and specifications.
- Troubleshoot and resolve technical issues related to satellite systems.
- Collaborate with external partners and vendors to integrate components and systems.
- Conduct research to stay abreast of the latest advancements in satellite technology.
- Provide technical expertise and support for satellite launches and operations.
- Develop and maintain documentation for satellite systems, including specifications, manuals, and reports.

Qualifications

- Bachelor's degree in Aerospace Engineering, Electrical Engineering, or a related field.
- Proven experience in satellite systems design, development, and testing.
- Strong knowledge of satellite communication protocols and systems.
- Proficiency in relevant software tools for satellite systems design and simulation.
- Excellent problem-solving and analytical skills.
- Effective communication and teamwork abilities.
- Familiarity with industry regulations and standards for satellite systems.

Job Benefits

- Competitive salary and benefits package.
- Opportunities for professional development and training.
- Engaging and collaborative work environment.
- Contribution to cutting-edge space technology projects.
- Health and wellness programs.
- Retirement and pension plans.
