NLNG Recruitment 2025/2026 Application Form – Hiring Now

Description

Are you passionate about leveraging natural language processing and data analytics to drive business insights? NLNG is seeking talented individuals to join our dynamic team as Junior Data Analysts. As a Junior Data Analyst, you will play a crucial role in extracting, analyzing, and interpreting large datasets to provide actionable recommendations and support data-driven decision-making.

Responsibilities:

- **Data Extraction and Cleaning:**
 - Collect, clean, and preprocess data from various sources for analysis.
- **Data Analysis:**
 - Apply statistical methods and machine learning techniques to analyze complex datasets.
 - Identify trends, patterns, and correlations to provide valuable insights.
- **Natural Language Processing:**
 - Utilize NLP techniques to extract meaningful information from unstructured text data.
- **Visualization:**
 - Create clear and compelling data visualizations to communicate findings to stakeholders.
- **Collaboration:**
 - Work closely with cross-functional teams to understand business requirements and provide analytical support.
- **Continuous Learning:**
 - Stay abreast of industry trends and advancements in data analytics and NLP.

Qualifications:

- Bachelor's degree in Computer Science, Statistics, Mathematics, or related field.
- Proficiency in programming languages such as Python or R.
- Strong analytical and problem-solving skills.
- Familiarity with NLP libraries and frameworks.
- Excellent communication and collaboration skills.

Benefits:

- Competitive salary and performance-based bonuses.
- Health and wellness programs.
- Professional development opportunities.
- Flexible work schedule.
- Collaborative and inclusive work environment.
