- Collaborate with architects, engineers, and subcontractors to develop and implement project plans.
- Monitor and control project progress, including schedule, budget, and quality of work.
- Provide leadership and guidance to project teams, ensuring effective communication and collaboration.
- Evaluate and mitigate risks, and implement solutions to address challenges that may arise during construction.
- Ensure compliance with building codes, regulations, and safety standards.
- Review and approve project budgets, contracts, and change orders.
- Prepare regular status reports and communicate project updates to stakeholders.
- Foster positive relationships with clients, vendors, and other project stakeholders.

Qualifications

- Bachelor's degree in Construction Management, Civil Engineering, or a related field.
- Proven experience as a Project Manager in the construction industry.
- Strong knowledge of construction processes, building codes, and safety regulations.
- Excellent leadership and interpersonal skills.
- Effective communication and negotiation abilities.
- Ability to manage multiple projects simultaneously.
- Proficient in project management software and Microsoft Office Suite.

Job Benefits

- Competitive salary commensurate with experience.
- Health, dental, and vision insurance.
- Retirement savings plan.
- Professional development opportunities.
- Collaborative and innovative work environment.
- Opportunities for career advancement.
