Toloka Requirements | Apply Online Form 2025

Description

We are seeking motivated individuals to join our team as Toloka Operators for the year 2024. As a Toloka Operator, you will play a crucial role in contributing to various projects and tasks related to data labeling, categorization, and quality control. Toloka Operators work on the Toloka platform, assisting in the completion of diverse tasks that help improve machine learning models and enhance the overall user experience.

Responsibilities

- Execute tasks on the Toloka platform, ensuring accuracy and efficiency in data labeling and categorization.
- Follow project guidelines and instructions to achieve high-quality results in assigned tasks.
- Collaborate with team members and project managers to address questions and resolve issues promptly.
- Maintain a consistent and reliable workflow to meet project deadlines.
- Provide valuable feedback on the task instructions and guidelines to improve overall project efficiency.

Qualifications

- Excellent attention to detail and accuracy in task execution.
- Strong communication skills to collaborate effectively with team members and project managers.
- Comfortable working with online platforms and technologies.
- Ability to follow project guidelines and instructions meticulously.
- Basic understanding of data labeling and categorization processes (training will be provided).

Job Benefits

- Competitive hourly rates.
- Flexible work hours to accommodate different schedules.
- Opportunities for skill development and training in the field of data labeling and machine learning.
- Access to a supportive and collaborative team environment.

Contacts

To apply for the Toloka Operator position, please fill out the online application form [Link to the application form](#). Ensure that you submit your application before the deadline. Shortlisted candidates will be contacted for further assessment.

Join our team and be part of the exciting advancements in the field of machine learning and data processing. We look forward to welcoming dedicated individuals to contribute to our dynamic projects on the Toloka platform.
