World Health Organization Recruitment 2025 – Nigerian Latest Jobs Update

Description

The World Health Organization (WHO) is seeking a highly motivated and experienced Public Health Specialist to join our dynamic team in Nigeria. As a Public Health Specialist, you will play a pivotal role in the design, implementation, and evaluation of public health programs aimed at improving the health outcomes of the Nigerian population. This is an exciting opportunity to contribute to global health initiatives and make a lasting impact on the well-being of communities.

Responsibilities

- **Program Development and Implementation:**
 - Lead the development and implementation of public health programs in collaboration with government agencies, NGOs, and other stakeholders.
 - Design evidence-based interventions to address key public health challenges in Nigeria.
- **Monitoring and Evaluation:**
 - Establish and oversee robust monitoring and evaluation systems to track the progress and impact of public health programs.
 - Analyze data and generate reports to inform decision-making and program refinement.
- **Capacity Building:**
 - Provide training and technical assistance to health professionals and community workers to enhance their capacity in public health practice.
 - Foster knowledge sharing and collaboration among health partners.
- **Policy Advocacy:**
 - Advocate for evidence-based policies that promote public health and address health disparities.
 - Engage with government officials and other stakeholders to influence policy development.
- **Emergency Response:**
 - Contribute to the development and implementation of emergency response plans for health crises.
 - Coordinate with relevant agencies during public health emergencies.

Qualifications

- Master's degree in Public Health, Epidemiology, or a related field.
- Minimum of 7 years of experience in public health program management.
- Strong knowledge of Nigerian healthcare systems and public health challenges.
- Proven experience in designing and implementing health interventions.
- Excellent analytical and problem-solving skills.
- Effective communication and interpersonal skills.
- Ability to work collaboratively in a multicultural and multidisciplinary team.
