Yazaki Requirements | Apply Online Form 2025

Description

Yazaki, a global leader in the automotive industry, is seeking a highly motivated and detail-oriented Requirements Analyst to join our dynamic team. As a Requirements Analyst, you will play a crucial role in ensuring the successful development and implementation of automotive systems. If you have a passion for precision, problem-solving, and thrive in a collaborative environment, we invite you to apply and contribute to the innovation that drives our industry.

Responsibilities

- **Requirements Gathering:** Collaborate with cross-functional teams to gather and analyze business and technical requirements for automotive systems.
- **Documentation:** Create and maintain comprehensive requirement specifications, ensuring clarity, completeness, and traceability throughout the project lifecycle.
- **Analysis and Validation:** Evaluate requirements for feasibility, relevance, and alignment with project goals. Conduct validation exercises to ensure accuracy and completeness.
- **Communication:** Effectively communicate requirements to development teams, stakeholders, and other relevant parties. Facilitate discussions to resolve any discrepancies or ambiguities.
- **Change Management:** Manage and document changes to requirements throughout the project, ensuring proper impact analysis and communication to stakeholders.
- **Quality Assurance:** Collaborate with the QA team to develop test cases and participate in the validation of system functionality against defined requirements.
- **Continuous Improvement:** Contribute to process improvement initiatives, recommending enhancements to streamline the requirements management process.

Qualifications

- Bachelor's degree in Computer Science, Engineering, or related field.
- Proven experience as a Requirements Analyst or in a similar role within the automotive or related industry.
- Strong analytical and problem-solving skills with keen attention to detail.
- Excellent communication and interpersonal skills.
- Familiarity with requirements management tools and methodologies.
- Knowledge of automotive systems and industry standards is a plus.
- Ability to work collaboratively in a fast-paced, dynamic environment.

Job Benefits

- Competitive salary and performance-based bonuses.
- Health, dental, and vision insurance coverage.
- Retirement savings plans with company contributions.
